

HORTICULTURE COMMITTEE 2023

The president will appoint a horticulture chair at the beginning of their terms. The chair will select committee members (can include non-club members) to assist with a topical presentation at the general business meeting.

Horticulture committee responsibilities:

- Committee members or assigned by the chair will present a brief, no longer than 10 minutes, presentation on a seasonal gardening topic. This may include any and all subjects that contribute to successful and conscientious growing of food and ornamental plants in our unique North Olympic Peninsula environment.
- The committee chair will arrange any necessary AV equipment ahead of the general meeting with the hospitality committee.
